Law Enforcement

Agisent's new and enhanced quarantine, infection control, and rapid medical screening seamlessly integrate with the company's larger suite of advanced solutions for law enforcement. These features help mitigate risk and increase safety for the general public and to all those on the front line of COVID-19 and other infectious diseases.

Medical Service Providers

Agisent's advanced real-time medical screening solutions can easily coexist with existing data systems, and features full customization to match your corporate branding, optimized for wireless tablets, laptops, and desktop systems, real-time data portal with industry-standard exporting and reporting, and available standalone or with a variety of support modules.
