

Attenti Tracker 1 (AT1)

Designed for maximum flexibility and ease-of-use, the Attenti Tracker 1 (AT1) lets you focus more on your monitoring program and less on your equipment. *The benefits of the AT1 include multiple tracking technologies, LTE and Wi-Fi communication, pursuit mode, and the widest array of interference detection in the industry.* System updates and new features are released and installed wirelessly with no need for hardware upgrades.

The innovative technologies packed into the AT1 combine to provide precise and reliable tracking that interfaces with our popular EM Manager software.

Specifications

ONE-PIECE TRACKING DEVICE SYSTEM		
Attenti Tracker 1 (AT1)		
Dimensions	3.72L x 1.82H x 3.30W inches	
Weight	< 6.5 ounces	
FCC ID	NC3-14024VL	
Battery Recharge Time	< 2 hours in normal use	
Battery Life	~ 40 hours	
Waterproof	To a depth of 68 feet	
Operating Temperature Range	-10° to +40° C	
Stored Temperature Range	-20° to +60° C	
Humidity Range	15% to 90%	
Nonvolatile Memory	> 30 days	
Communication Methods	Vibration, LED lights, button	
Beacon		
Dimensions	6.12L x 8.90H x 5.40W inches	
Weight	24.3 ounces	
FCC ID	NC3-TSSDB-830-5	
Backup Battery Life	> 20 hours	
Backup Battery Recharge	4 hours	
Shelf Life	> 5 years	
Operating Temperature Range	-25° to +55° C	
Stored Temperature Range	-25° to +55° C	
Humidity	93% at +40° C	

attenti

A tracking system for those who know it's about more than tracking.

Designed for maximum flexibility and ease-of-use, the Attenti Tracker 1 (AT1) lets you focus more on your monitoring program and less on your equipment.

One-Piece GPS Tracking

Enabling communities to become safer and more secure.

Since 1994, Attenti has been trusted by government agencies and service providers worldwide by providing advanced technology, exceptional support, and industry expertise. Our field-proven solutions improve the security of communities by enhancing public safety, protecting agency budgets, and helping people rebuild their lives.

Key Features

Wi-Fi Tracking

Attenti's AT1 features Wi-Fi tracking as one of its three location technologies. Utilizing Wi-Fi access points, the AT1 continues tracking in the absence of GPS.

Interference Detection

The AT1 offers cutting edge technology with the widest array of interference detection in the industry: cellular jamming, GPS jamming, device shielding, and motion detection.

LTE and Wi-Fi Communication

The AT1 transmits location data and alert status via LTE and Wi-Fi networks. Combined with the two largest cellular carriers, AT&T and Verizon, the AT1 offers the most reliable coverage nationwide.

Pursuit Mode

Pursuit Mode turns on real-time tracking. It accelerates the speed at which the AT1 collects points, allowing officers to closely track offender locations during an active investigation.

Onboard Processing

The AT1 stores the offender's rules onboard and compares its location to the rules defined for the offender. The device notifies offenders and generates alerts for noncompliance faster than devices that do not have this capability.

Patented Strap Design

Attenti has patented a light-focusing technology that maximizes our ability to detect strap tamperers. The strap contains an accurate fiber optic circuit; an internal copper wire aids in stretch resistance and durability.
