## PERSONAL PROTECTIVE EQUIPMENT

From the true innovators in safety products for law enforcement, first responders and all organizations responsible for the safety and security of their most precious assets – people.

Developed to aid in the fight against COVID-19, Shield offers a variety of Personal Protective Equipment (PPE) including N95 NIOSH certified face masks, Nitrile medical-grade disposable gloves, and alcohol disposable wet wipes.

Medical-grade Nitrile Gloves

N95 NIOSH Certified Face Masks

Hand Sanitizer Wipes

# NITRILE GLOVES

## Medical-grade Exam Gloves

These disposable gloves are exceptionally useful for when frequent glove wearing is required, especially for sanitation applications or serving food. Gloves will keep hands protected and fight against the spread of germs, diseases, and viruses. Unique textured surface provides a secure grip in wet or dry settings. These gloves offer reliable quality, barrier protection, puncture resistance, and are tested against chemicals and chemotherapy drugs.

- Powder free, non irritant minimizing type IV allergies
- Thickness of gloves - 2mil
- 100 Gloves / 50 pairs per box
- Textured at fingers to enhance grip
- Great comfort and brilliant tactile sensitivity
- FDA 510(k) registered

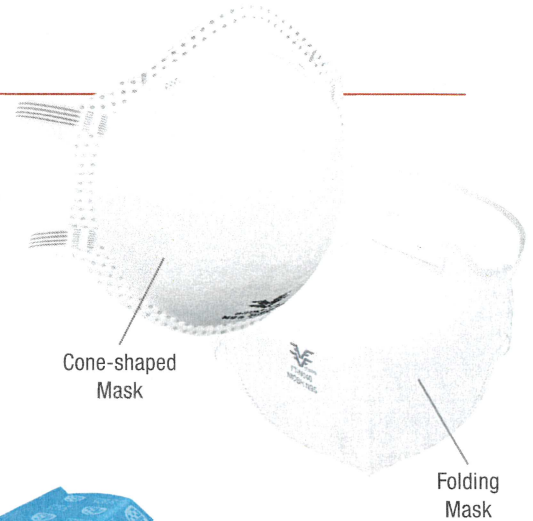

# N95 NIOSH CERTIFIED FACE MASKS

## Choose From 2 Styles of N95 NIOSH Masks

These disposable face masks are approved by the National Institute for Occupational Safety and Health (NIOSH) and are N95 certified, achieving at least a 95 percent filtration efficiency against certain non-oil based particles. They come equipped with an adjustable nose clip to help in obtaining a secure seal. Masks are made from durable, latex-free materials to ensure wearing comfort – and the electrostatic media is designed for ease of breathing. They're also on CDC's list of NIOSH-Approved N95 Particulate Filtering Facepiece Respirators.

- 4-Layer design ensuring support, protection and breathability
- Flexible nose pad and dual head strap for a secure seal and all-around facial protection to help prevent leaks from the sides
- Compatible with a variety of protective eyewear and hearing protection
- NIOSH approval number TC-84A-7862

# HAND SANITIZER WIPES

## 75% Alcohol/Antiseptic Hand Wipes

These pre-moistened disinfectant wipes are 75% Alcohol and can be used to sanitize hands to kill 99.9% of germs – effectively preventing cross-contamination and the potential spread of viruses and diseases. Perfect for use in supermarkets, retail stores, fitness centers, restaurants, offices, healthcare facilities, schools and universities, daycare centers, and more. They meet FDA safety requirements for use on hands and skin.

- Resealable opening to keep wipes moist
- Packs of 25 sheets or Canisters of 100 sheets
- Topical solution, antiseptic hand rub
- Made in USA (FDA/ISO certified facility)
- Large sheet size (6.7" x 7.9")
- FDA National Drug Code Approved

# THERMOVU

## Temperature Screening System

ThermoVu™ is a non-contact temperature measuring instrument that measures wrist temperature. It provides an abnormal temperature alarm and counting features – and is mounted on a pole with adjustable heights. ThermoVu can be widely applied in schools, office buildings, communities, subway stations, airports, etc.

# SHIELD CLEANSERS

## Disinfectant/Sanitizer

It is recommended that Shield Disinfectant/Sanitizer be used regularly on the ThermoVu measuring instrument. Shield products, trusted by first responders, may be purchased by calling us at **855-626-5472** or visiting [www.ShieldCleansers.com](http://www.ShieldCleansers.com).
