SYSTEM FEATURES AND FUNCTIONALITIES

ONLINE BOOKING PORTAL

Streamline your appointment scheduling operations by bringing it all online, and empowering users to book their own appointments based on the availability you define.

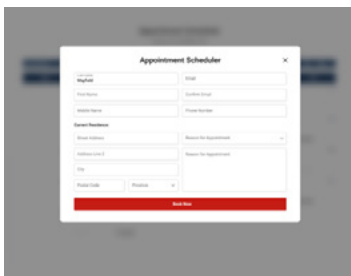

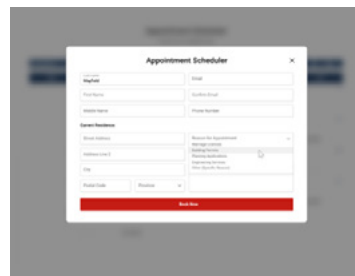

A. PUBLIC FEATURES

- Choose what type of appointment you'd like to schedule
- Calendar interface summarizing the number of available appointment slots each day
- Select a particular day to view the available timeslots
- Select a timeslot and fill in a short form to book your appointment
- Receive a confirmation notice that your appointment is booked
- The booking interface will update to remove booked timeslots from the available choices
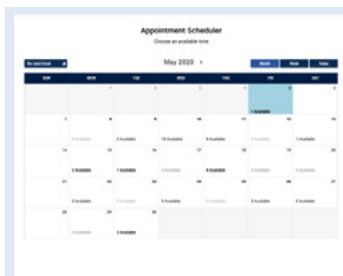

B. ADMINISTRATIVE FEATURES

- Create different appointment types with different durations, for example:
  - Planning Application Review – 1 hour
  - Freedom of Information collection – 15 minutes
  - Long-term care home resident family visit – 30 minutes
  - Marriage License pickup – 15 minutes
- Setup available timeslots for each appointment type
- Customize the questions on the booking for each appointment type
- Receive notifications when an appointment is scheduled
- Schedule appointments on behalf of users
- Cancel appointments as needed
