

RapidDeploy

Nimbus Dispatch:

Efficient and cost-effective

9-1-1 workflow that enables remote dispatch and response

Cloud-Based Dispatch and Mapping

- Zero downtime. No need for servers, patches, updates, maintenance. All handled in cloud.
- Live dispatch info. 911 callers can click a text message link to stream real-time location info and video evidence straight to dispatcher.
- Dispatcher can forward video stillshots to police en-route.
- Dispatcher can forward live/updated GPS coordinates.
