

PRIMAVIEW

VIDEO MANAGEMENT SOFTWARE

PrimaView is the simple-to-use video software that collects, manages and stores all digital evidence from the standalone Safety Vision Body Camera solution. Find and retrieve video evidence quickly and easily with simple search functions. Label, categorize, organize and log all video evidence with convenient reporting tools. Custom retention policies allow users to maintain different file types for the required length of time. With secure access and detailed user history, a complete audit trail of users and the actions they performed are all documented.

FEATURES:

- Simple Search Functions
- Custom Retention Policies
- Detailed User History
- Secure Access
- Convenient Reporting Tools
- Quick Exporting
