

Installed on a front ambulance console, for easy reach and manipulation from the driver or passenger seat.

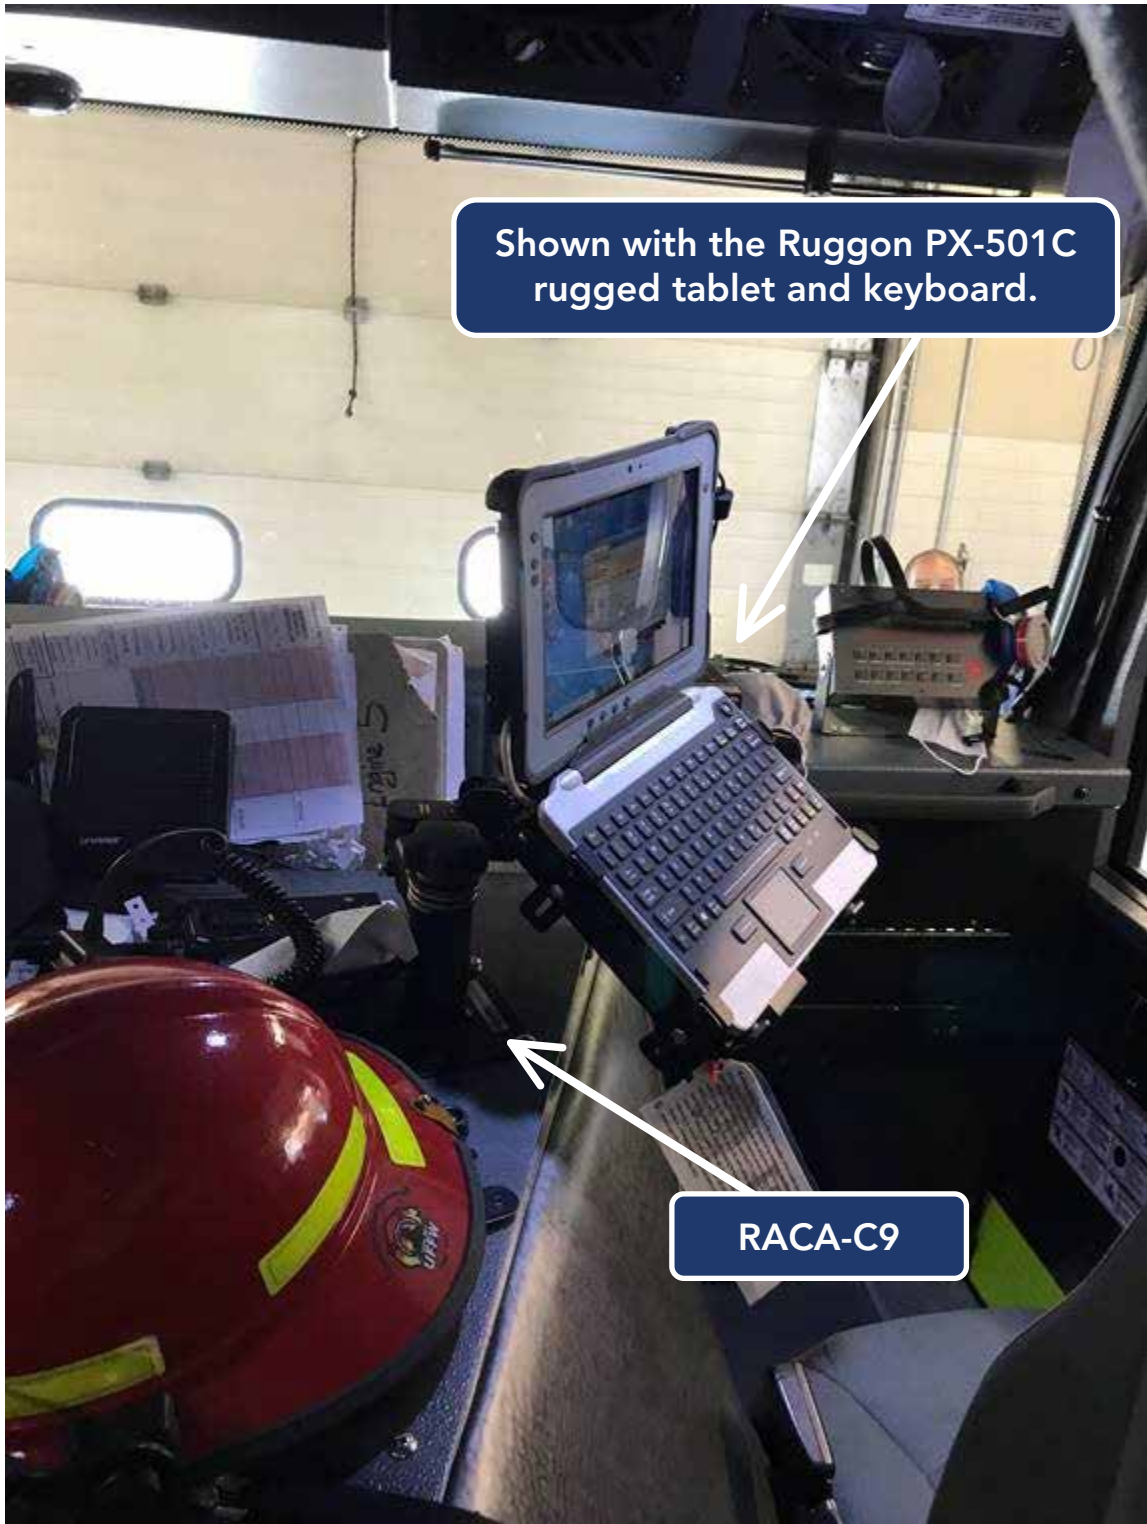

Any make / model of laptop, PC tablet or keyboard may be mounted to the Raca units.

The RACA is shown mounted to the sidewall at the rear of the ambulance.

This was the only possible solution for this client, as a floor mounted mount would be obstructive, and has no side console to mount the Raca.

Installed on the side console beside the Captain' seat,  
in firetrucks.

Any make / model of laptop, PC tablet or keyboard  
may be mounted to the Raca units.

# Rossbro Articulating Computer Arm (RACA-C/F9)

The industries **most ergonomic and user/friendly**  
vehicle computer mount, **Bar - none**
