## V-300<sup>®</sup>

1-YEAR WARRANTY | V-300LE-1

VirTra's V-300 was the world's first 300-degree officer training simulator. Its five screens immerse trainees in real-life scenarios, ranging from **crisis de-escalation** to **judgmental use of force**.

As trainees interact with the subjects, instructors choose the appropriate scenario branching option. This allows the situation to unfold based on the trainee's actions—increasing the realism.

“ The V-300 is the **top-of-the-line in simulators**. It allows for immersion, de-escalation, stress inoculation, different weapon systems and multiple scenarios with multiple branching options. ”

**Officer M. Austin, Omaha Police Department Academy Instructor**

“ This 300-degree firearms training simulator **far surpasses any law enforcement training currently available** in the region. It provides real life training, giving officers a chance to test their skills against a variety of situations many encounter on a daily basis. ”

**Chief Deputy David Huckstep, Alachua County Sheriff's Office**

## Complete Training Library

The entire library of professionally-produced scenarios are filmed and edited specifically for the V-300. Training topics include: active shooters, de-escalation, emotionally disturbed person and skill drills.

## In-Depth Scenarios

Each scenario is equipped with extensive branching options for unique content and genuine realism—as well as multiple training points for objective-based training and learning.

## V-Marksmanship®

The V-300 V-Marksmanship program allows training across all 5 screens, or on individual screens. Instructors can choose from a variety of environments, weather, wind speeds, shooting positions and more.

## Real World Ballistics

The V-Marksmanship program is capable of replicating live fire and shooting distances up to 2,000m. VirTra's ballistics calculator is independently verified with .02 milliradians accuracy for powerful training.

## Realistic Training

Officers can train with their personal duty weapons, once outfitted with VirTra's drop-in laser recoil kits and CO2 magazines. These kits allow for more realistic training and reduced training scars—without permanent modification.

## V-VICTA™

The V-VICTA program—Virtual Interactive Coursework Training Academy—delivers nationally-certified training curriculum. All materials teach, train, test and sustain officers on critical, potentially life-saving topics.
