In Appreciation

The North Carolina Sheriffs’ Association Directory is compiled and published as a public service, and made possible through the support and generosity of our Honorary Members and Directory advertisers.

This directory is a valuable tool, not only to sheriffs, but to all law enforcement officials in North Carolina as an instant reference guide. The directory contains biographical data of federal, state, county, city, and town public officials.

To those businesses and individuals who support and believe in quality and professional law enforcement, our sincere appreciation.

NORTH CAROLINA SHERIFFS’ ASSOCIATION
In Memoriam
March 2019 – August 2021

WHY AUTOGAS?

FOCUS ON THE “3 E’S”

ECONOMICS:
Your bottom line is at the center of our operation. When gas prices go down, so does the price of autogas. In fact, you can count on propane costing about 30% less than gasoline at any given time. Even during spikes in the price of crude oil, the relationship between the price of gasoline and autogas has held steady. The price volatility of gasoline and diesel can make it challenging to predict your budget costs. Alliance AutoGas can help you solve that problem by locking in your fuel price.

ENVIRONMENT:
When compared to gasoline or diesel, autogas substantially reduces greenhouse gases such as carbon monoxide, carbon dioxide, and nitrogen oxide as well as non-regulated emissions including aromatic hydrocarbons, benzene, and sulfur dioxide. Whether improving the environment is a corporate priority, or you recognize that sustainable solutions are on the minds of the American consumer, converting to autogas allows your business to contribute to improvements in the transportation sector.

ENERGY SECURITY:
Autogas is an American-made fuel. Using autogas lowers our dependence on foreign oil and keeps costs down.

99% of propane autogas used in the U.S. is produced in North America.

Alliance AutoGas Engineered Systems are certified by the Environmental Protection Agency (EPA).

* Early access to direct deposit funds depends on the timing of the payer’s submission of deposits. We generally post such deposits on the day they are received which may be up to 3 days earlier than the payer’s scheduled payment date.
† Your individual interest rates and credit terms are based on information in your credit profile. Civic uses a risk-based pricing model. This model allows lenders to use credit profile characteristics to charge borrowers interest rates that vary by credit quality.
