

2023 Model Year Stellantis Government Fleet Production Updated 11/2/2022

The 23MY Charger Pursuit opened for ordering today. We are anticipating strong demand for this vehicle. Because of the shortage of police vehicles in the marketplace today, Stellantis is requiring Dealers to include the Purchase Order (PO) from the agency on ALL Government Fleet orders placed for 23MY.

Just a reminder. The 23MY will be the **last year of production** for the **current** Charger Pursuit body model (LD) where you can get a V8 Hemi - RWD or V6 - AWD. We will build this vehicle as a 23MY until the end of December of 2023. You will continue to see announcements of our future plans for the 24MY replacement vehicle in the coming months.... so, stay tuned.
