

To whom it may concern;

Velocity Truck Centers is honored to serve the trucking community with multiple locations and brands of trucks in eastern NC. We take pride in our unique ability as a provider of new and used trucks, parts and service for all of our long-time customers.

As the industry has changed over the past few years with each manufacturer developing their own drivetrain and many other proprietary components, coupled with rapidly developing technologies including alternative fuels and electric vehicles, we have decided the best way to provide you with the finest products and highest level of support will be through focusing on the DTNA brands as we do across the country.

Therefore, we are selling our International franchise to Smith International Trucks, and our Mack and Volvo franchises to Transource, N.C. effective 9-30-2022.

Velocity Truck Centers will continue to operate in all of its current locations except Rocky Point NC.

With the DTNA product offerings along with our Isuzu brand and numerous specialty truck brands, **Velocity** will continue to provide you trucks for every application.

We will also continue to provide parts for all makes of trucks and offer unparalleled parts coverage, expertise, deliveries and support. We will leverage our position as the largest parts purchaser from DTNA in the country, to better support you, our customers.

Velocity Truck Centers has one of the largest service support networks in the industry and processes more warranty repairs than any other DTNA dealer group in the country. We are here to serve you!

We want to thank you for allowing us to serve you in the past with multiple name plates and we look forward to providing even better service in the future as we narrow our focus and strengthen our abilities in N.C.
