Question - What kind of heavy equipment is offered on the NCSA's Heavy Equipment Procurement Program?

Answer - The NCSA Heavy Equipment Procurement Program provides all government agencies over 3,500 separate equipment offerings, not including models that are considered to be an upgrade or downgrade.

The NCSA Program provides government agencies with: refuse trucks, street sweepers, excavators, shredders, compactors, speed monitors, and more.

The NCSA Program offers over 150 equipment categories (groups).

Question - Does a local government agency have to register or become a member of the North Carolina Sheriffs' Association?

Answer - No. All government agencies can participate in the NCSA's Heavy Equipment Procurement Program without joining the North Carolina Sheriffs' Association.

There is no registration with the North Carolina Sheriffs' Association required and no registration fee required. A government agency does not need to be a member of the North Carolina Sheriffs' Association to purchase off this Heavy Equipment Procurement Program.

Question - **Is there a commission fee?**

Answer - Yes. Dealers must include a three quarters of one percent (.0075) commission fee in their base Bid prices, and their quotes and pricing for all additional equipment items (options), excluding any state regulated fees including tags. The three quarters of one percent fee will be incorporated into, and made a part of, the total invoice amount and shall not be treated or added as a separate line item. Fees are based on the total invoice cost of the new Heavy Equipment or equipment, excluding trade-ins. Trade-ins and other exchanges will not reduce or impact the NCSA Commission fee calculation. No other administrative fee(s) will be applicable to any transaction relative to the contract.

This commission fee is non-negotiable and will be collected on all purchase orders using the NCSA Heavy Equipment Procurement Program.

This commission fee is used by the North Carolina Sheriffs' Association to continue to support all sheriffs' offices in the State of North Carolina with ongoing support, education, and necessary training.

Question - How does the North Carolina Sheriffs' Association choose the heavy equipment dealers on this Heavy Equipment Procurement Program?

Answer - The North Carolina Sheriffs' Association conducts a solicitation for participation throughout the Southeast. The NCSA sends out over 400 solicitations to heavy equipment dealerships and manufacturers asking to participate in the NCSA's Heavy Equipment Procurement Program.

The NCSA develops, with the assistance of dealers and manufacturers within the Southeast a comprehensive listing by dealer/manufacturer of equipment specifications that are most popular with government agencies. Once these equipment specifications are developed and the Price Sheet entries have been approved, the NCSA goes out to bid on each piece of equipment.

Each participating heavy equipment dealer or manufacturer are required to submit an electronic bid submission through the Association's online bid system, VendorLink, along with submitting all required cooperative purchasing documentation.

This competitive process provides multiple sources of supply based on a pre-set maximum price which the Customer will pay. Contracts will be awarded to all responsive and responsible bidders. Any VendorLink entries received that do not meet solicitation requirements will be considered non-responsive.

Question - How long are the NCSA's Heavy Equipment Procurement contracts effective?

Answer - All contracts are effective for 365 days. All contracts become effective on May 18th and will expire on May 17th. A contract may be renewed by mutual agreement between the NCSA and the Contractor, at the sole option and discretion of the NCSA, for up to two additional consecutive years, on a year to year basis.

The NCSA has worked with each vehicle manufacturer to ensure all NCSA pricing is locked in for one full contract year, despite any changes

in a piece of equipment's model year. There are few exceptions of which the NCSA will accept on an individual basis.

Question - If I am the manufacturer can I participate?

Answer - Manufacturers may hold the contract. If an individual dealer who represents the manufacturer chooses to participate, they must submit their own bid and hold their own contract. The contract holder is responsible for providing the NCSA with a copy of all purchase orders.

All manufacturers must also ensure any proper warranty work can be completed for all agencies submitting a purchase order.
