Weekly Legislative Report

April 19, 2024

The 2024 session of the North Carolina General Assembly will re-convene next week on Wednesday, April 24, 2024 to start the business of the session. The 2024 session is the second year of a two-year session which is commonly referred to as the "short session." The short session usually begins in April or May and is likely to end sometime during July.

One of the goals for legislative leadership during the short session will be making any needed adjustments to the State Budget. Last year's General Assembly adopted a two-year budget and this year's General Assembly can make various adjustments and changes to the budget as they determine to be appropriate. The second goal of the short session is to keep the session truly short.

Both Speaker of the House Tim Moore and Senate President Pro Tempore Phil Berger have indicated they plan to be efficient with the business of the General Assembly and intend to make this an actual short session. One benefit of wrapping up mid-summer is providing legislators several months in their districts to campaign for the November election.

The North Carolina Sheriffs' Association prepares Weekly Legislative Reports each Friday that the North Carolina General Assembly is in session. The Reports detail legislation that is of special interest to sheriffs, sheriffs' office personnel and other law enforcement officers and criminal justice professionals in our State.

If you would like a copy of any of the legislation introduced or considered by this year's General Assembly, copies are available on the General Assembly's website: www.ncleg.gov.

The **Weekly Legislative Report** is provided at no charge as a service to the sheriffs, criminal justice community and citizens of North Carolina.
