## Connectivity Services Integrated in Base MSRP

# Mercedes PRO connect Planned 3 Bundles for Go-Live<sup>1</sup>

### Optimized Assistance

Included Mercedes PRO connect Services

- ✓ Accident and Breakdown Management
- ✓ Emergency Call System
- ✓ Live Traffic Information
- ✓ Car-to-X Communication
- ✓ Software Updates
- ✓ Internet in the Car
- ✓ Maintenance and Repair Management
- ✓ Online Map Update
- ✓ Navigation Functions
- ✓ Multimedia Functions

### Efficient Fleet Management

Included Mercedes PRO connect Services

- ✓ Remote Control
- ✓ Vehicle Supervision
- ✓ Eco Monitor
- ✓ Drive Style Monitor
- ✓ Vehicle Operations
- ✓ Fleet Communication incl. Send2Car
- ✓ Digital Driver's Log
- ✓ Digital Trip Management
- ✓ Theft Warning

### Data Interfaces Mercedes-Benz Vans

Included Mercedes PRO connect Services

- ✓ Vehicle Data Interface extended
- ✓ Vehicle Data Interface light

<sup>1</sup> Service portfolio subject to change

**For more information please go to:**

[www.mbvans.com/mercedespro](http://www.mbvans.com/mercedespro)    [www.freightlinersprinterusa.com/mercedespro](http://www.freightlinersprinterusa.com/mercedespro)

For questions please reach out to [mpro-us-team@mbusa.com](mailto:mpro-us-team@mbusa.com).

1) Hardware standard (Communication Module) in every sprinter (JH3)

2) Valid subscription to Live Traffic Information is necessary for the use of Car-to-X communication. Only the data of vehicles directly affected by the event, and likewise equipped with Car-to-X communication, are processed. You can therefore not assume that you will receive a timely warning of hazards in every case.

3) Your Emergency call system is already active ex-factory.

4) Created via an SIM card. Further costs are incurred for the data volumes accessed. To this end, a corresponding data agreement must be concluded with the mobile phone service provider. Mobile devices are paired with the Wi-Fi hotspot by selecting the appropriate menu on the mobile device and entering a PIN shown in the multimedia system.

5) Bundle "Optimized Assistance" is complimentary for 36 months after purchase and activation date.

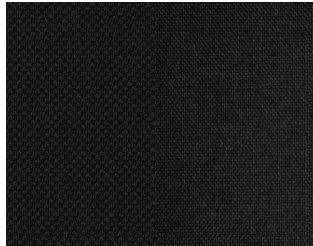

## Exterior Paint Overview

Code	Description	Price	Paint
1243	Calcite yellow	\$670	
3432	Sunset red	\$670	
3583	Velvet red	\$0	
3589	Jupiter red	\$0

		CB8
Options	A50	-
Specialized Options	CE8 <i>(Fleet only)</i>	
	B01	
	X2R <i>(Fleet only)</i>	

## Suspension Details

Standard Suspensions and Options			
Code	Title	Details	
A50	Front axle reinforced	Includes an increased load capacity of the front axle, heavier bodies and equipment can be fitted. The higher capacity front axle caters for heavier cabs and heavy special equipment (e.g. for fire-fighting vehicles and ambulances).	
No Factory Code	Base Standard Factory Suspension	<b>Description</b>	Ride comfort due to reduced roll stabilization.
		<b>Benefit:</b>	The Base Standard Factory suspension, has an adapted front suspension for a lower and more comfortable entry. With the removal of the rear stabilization bar it allows for an overall comfortable ride with reduced roll.
CB7	Stabilization Level I	<b>Description</b>	Roll Stabilization with height body damping
		<b>Benefit</b>	CB7 compensates for rolling behavior due to heigh center of gravity of loads or bodies. Torsion bars with an increased diameter are added to the front and rear axels. Furthermore, shock absorbers with an adapted characteristic are installed.
CB8	Stabilization Level II	<b>Description</b>	Enhanced roll stabilization with higher body damping compared to CB7
		<b>Benefit</b>	Additional roll stabilization and body damping compared to CB7. Increases torsion bar diameters at the front and rear axles and provides an adapted shock absorber characteristic. Furthermore, rear axle springs with increased rigidity are installed.
CB1	Suspension for comfort and load protection	Enhanced comfort due to adapted damper characteristics and the use of progressive spring characteristics.	
CT1	Rear spring vibration absorbers	Includes vibration absorbers fitted on the left and right rear spring and lowers the resonant vibrations of the rear springs, thus hindering noise development.	

Specialized Suspension Options			
Code	Title	Explanation	
CE8	Raised rear body mounts	Raised body on rear axle (35mm). For RV only.	
B01	ESP for increased Center of Gravity	<b>Description</b>	Adjusted braking and handling characteristics for vehicles with increased center of gravity.
		<b>Benefit</b>	With code B01, the ESP® is optimized to reduce the vehicles tilt tendency with a total center of gravity of <u>more than 1000 mm (39,4 inches)</u> . It is essential to ensure that the vehicle ise equipped with the right suspension and tires.With B01 it is required to also add CB8 (standard for 3500 and up).
X2R	Bodybuilder requirement: conversion to motorhome	Description will be updated shortly.	

## Tire & Wheel Overview

1500/2500 Models					
	Standard Tire		RH8	<i>Single tire</i>	
	Standard Wheel		RS3		<i>Steel</i>
	Optional Wheel		RL5		<i>Alloy</i>

\*only cameras with analog signal works

\*\*only the Mercedes-Benz rear view camera works (digital signal)

## Hermes Module for Government contracts

*Note: municipal and county business is still allowed*

Please note that all Sprinter vehicles with the code **JH3** (*communications module LTE – standard equipment for all Sprinter*) are no longer eligible for tenders, sales, and lease or rental contracts with U.S. federal institutions, such as U.S. governmental bodies, U.S. authorities, U.S. embassies and diplomatic missions as well as U.S. armed forces worldwide.

The background is a new U.S. provision that prohibits the U.S. federal government from entering into, extending, or renewing contracts with any entity that uses any equipment, system, or service that uses telecommunication equipment incorporating certain Chinese technology (Interim rule to Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, published in the U.S. Federal Register on July 14, 2020).

Since Mercedes-Benz Vans vehicles currently do incorporate such covered technology (code JH3), business with U.S. federal contractor is no longer possible. The new rule applies to contracts entered into after **August 13, 2020** or contracts entered into before **August 13, 2020** of which the supply of vehicles takes place after that date.

### Ordering

If you are planning to supply a customer out of the above listed groups with Sprinter vans, please be aware that JH3 is standard for all Sprinter models. Therefore, a special ordering process is required. For details, please reach out to your responsible RSM.

### Removal of JH3 from stock vehicles

The Hermes Module can be removed from vehicles. Please contact Service & Parts for details.

## Cargo Van Floor Variations

<b>Standard</b>	V93	Without factory installed flooring
<b>Options</b>	V43	Wood floor with 6 D-rings
	VK8	Floor covering, plastic

*Note: see restrictions in combination with metallic paint*

### Special Rule for cargo vans with metallic paint

<b>Paint Code</b>	5890/7755/7992/9197/9775	
<b>Must have one of</b>	V43	Wood floor with 6 D-rings
	VK8	Floor covering, plastic
	ZZ9	No floor covering; requires customer floor installation <i>Package contains:</i> <i>V93 - No factory installed flooring</i> <i>VL4 - Metallic painted floor</i>

*Note: Fleet only*

**Additional comments ZZ9 Package**

While applying the required clear coat layer to the metallic painted cargo floor, imperfections could occur. Therefore, we strongly recommend to install flooring in the cargo area for vehicles with a metallic paint. Please be aware that potential paint appearance, contamination or imperfections of the uncovered cargo floor are not considered a defect and are therefore not reimbursable for repairs.
